

Saturday's Report.

Washington, May 10.—The War Department received a despatch to-night from Gen. Butler, stating that he had seized the famous steam gun built by Winans of Baltimore, who attempted to send it to Harper's Ferry for the Virginians. Secretary Cameron replied: "Compliments of the Government to Gen. Butler and command. Seize everything contraband being sent to the rebels."

Orders will be issued to arrest Winans, who, if he is caught, will be treated summarily. He is the same who gave \$500,000 to aid the Secessionists in their work of treason.

Orders from the War department for the rigorous treatment of all traitors, or abettors, have been transmitted to every officer in commission.

Messages have been passing constantly between the Government and Cairo. Trouble is anticipated there every night. Messengers have been despatched to-day for Cairo and other points, ordering the concentration of a large body of western troops at that point.

St. Louis, May 11.—Many conflicting rumors prevail in relation to the cause of the firing on crowd of spectators at Camp Jackson last evening. Some say that rocks, brickbats and other missiles were hurled at the volunteers, smashing muskets, breaking limbs and otherwise wounding the soldiers, while others assert the contrary. A respectable citizen, an eye witness, who stood a few feet behind the troops that fired, states positively that no rocks were thrown and no pistols were fired by the crowd. That the only provocation given was abusive epithets launched at the Germans in the ranks. It is known, however, that after the firing commenced, shots were returned by parties in the crowd, wounding several soldiers. It is understood that a thorough investigation of the matter has been ordered by Capt. Lyon, when the truth will be known. Several of the troops are already under arrest.

The troops engaged in the capture of Camp Jackson were the 1st, 2nd and 4th regiments United States volunteers under Cols. Blair, Benstein, Zigel and Spitzer, and the 2d and 4th regiments United States reserve corps, formerly the Home Guard, under Cols. McNeal and Brown.

Capt. Lyon was seriously, but not dangerously wounded—kicked by a horse on the camp ground.

The United States troops are now in possession of Camp Jackson with all its equipment, tents, provisions, &c. The Pacific and North Missouri Railroad depots are occupied by the Volunteers. Much excitement exists in the city, but owing to the efficiency of the military and police corps, order prevails. Gen. Frost, with his staff and all the State troops, are at the arsenal.

Exact number not known, but generally estimated at 30,000. Respectable citizens of Memphis do not sympathize with them. Spies are kept constantly watching military operations at the North. On four separate occasions they have manned and armed steamers for an attack on Cairo, but before they were to start intelligence was received that made those in command deem it safe to defer the enterprise.
